Lecture by Dr Eamon Ansboro

**Title: Communicating with the Extraterrestrial Intelligence (ETI) behind
Unidentified Aerial Phenomena (UAP)**

In this talk Dr Ansboro will argue for the hypothesis that UAP may be exogenous probes of an ETI. The opportunity therefor exists for developing communication protocols and methodologies for 1st contact. This talk is free and public. Zoom details will follow shortly.

Eamon holds a Master degree in Astronomy and Philosophy. He also has a PHD in Astronomy from the Planetary and Space Sciences Research Institute at the Open University (UK). He is an elected fellow of the Royal Astronomy Society, national coordinator for Ireland for the International Astronomy Union and co-founder and national representative for Ireland of the International Coalition for Extraterrestrial Research, SETI Kingsland and UFODATA Project.
